D&T Family Learning Project

Dear families,

We're all missing seeing each other at the start and end of each day, so first and foremost, I hope you are all well! Last year, we had a fantastic Christmas St Pat's Bake Off, for a bit of fun, but also to support your child's food technology skills. It was a great success and it was lovely to have so many families join in. Whilst I would love to repeat the event this year, it would simply not be safe to do so. As such, we have come up with an alternative design technology challenge.

This year, with their families, we would like those children who want to, to design and make a winter outfit for our school mascot, Paddy! This is an optional challenge. It could be a nice warm scarf, a pair of salopettes for the bear to go skiing in, some PJs for Christmas morning - whatever you like! We are looking for creativity, design, and sewing skills. As always, we want this to be something made by your child, with support of an adult.

I wanted to give your child plenty of time to get their projects underway, so the closing date for entries will be Friday 11th December. Photo entries with a brief description should be sent to the school email address: schoolclosures@st-patricks.liverpool.sch.uk with your child's name and year group in the subject line of the email. Even though we would LOVE to see the real outfit, it is not safe to bring items in from home at the moment, so we ask for photo entries only, perhaps you could model them on one of your own teddies.

There will be prizes available for first place in each of the following categories:

- Foundation stage
- KS1
- KS2

I can't wait to see what your child creates!

Kind regards,
Mrs Davies
