

Parent Online Safety Session Comments
5th October 2021

Very helpful pointers and safety measures that are available for all children online apps and games.

Being comfortable with different and open dialogue-with our children to help protect them and us.

An insight into how I can begin to help my kids be safe online

Nothing, Mrs Jones is wonderful and explained it all in a way I could grasp (I'm not very good with technology)

Really enjoyed the session and found it very informative and learnt of new safety messages we can implement that I was not aware of.

Thank you for putting this on I know they are still young but it did help.
