## 12. What could we do to improve our school?

More updates on socials for year 1, so far nothing uploaded to Twitter as with previous years, this has been a good conversation at home to find out what Grayson has been doing in school, usually we get "don't know" or "can't remember".

Nothing it is best for me 🙌

I have comment only on academic calendar. The inset days and closing/opening school should be known at the beginning of the year for the whole year. Latest inset day was for us unexpected.

Not sure

You are doing your best

Come back to old fashioned paper homework instead of doing everything online

Think you doing great job

Avoid discrimination among others and be equal among everyone. There must be someone in the administration who helps and supports those who do not speak the English language. I love this school, but sometimes I feel frustrated when my son and I feel that there is racism and I do not find help from the school when I need it. This is really frustrating.
